

Noro hat

When I was in Vienna in december 2004, I saw hats like these being sold in the Christmas Markets. I kept thinking how great a hat like this would look in Noro Kureyon, which I had in my stash. At home, I couldn't find a pattern to make one, so I designed this one.

I used Noro Kureyon nr. 92 and 4.5mm needles (if I recall correctly). It took a little more than one ball.

Gauge: 4.5 spi

Cast on 95 sts loosely, join in a round.

Straight part

Worked in alternating bands of 4 rows knit, 4 rows purl
